PHYSICAL ACTIVITY POLICY

We understand the importance of physical activity in a child's life as exercise can reduce the likelihood of childhood obesity and promote the development of gross and fine motor skills. Children will be provided with opportunities to play outdoors daily unless prevented by inclement weather. If inclement weather prevents outdoor play, the children will still be provided with time for active physical play indoors.

EMERGENCY NOTIFICATIONS

Pompton Plains Preschool Policy for Parental Notification for injuries, illnesses, and emergencies:

These policies are arranged in conjunction with the Pequannock Township Police Department, ambulance squad and Chilton Hospital. If a child becomes ill (fever, vomiting, rash, headache) during the Preschool program, the child’s teacher will contact the parents/guardians listed as the child’s emergency contact either by phone or ClassDojo. Parents/guardians are contacted first, then the emergency contact, unless otherwise noted. The child will be isolated from the other students. Parents/guardians must pick up within one hour of the initial phone call.

For any injury that occurs during the Pompton Plains Preschool program which requires first aid treatment, the parents/guardians will be notified by phone and classroom dojo. The parent/guardian is also required to sign off on an incident report. If the injury is an injury to the head/face, involves a fall from a height greater than the height of the child, or the child cannot be consoled, the staff will call the child’s parent/guardian and will leave a message if the person does not pick up and will also send message to parent/guardian on ClassDojo. If the injury is major, and the child will need further medical attention, the staff will first attempt to call the parents/guardians listed as the emergency contact. Then a 911 call will be placed. The Pompton Plains Preschool uses the services of the Pequannock ambulance squad, police department, and Chilton Hospital.

Lost or Missing Child:

In the unlikely event that a child becomes lost or separated from a group, all available staff will search for the child. If the child is not located within 10 minutes, the parent/guardian will be notified by phone call. We will notify the Pequannock police department.

Fire Safety:

Our center is fully equipped with fire extinguishers and alarms.

Our fire evacuation plan is reviewed with the children and staff each month.

Children exit the building from 2 emergency exits and walk to the parking lot by rear barn.

In the event of a school evacuation, (water or gas leaks, power failure etc.) parents/guardians will be notified by classroom dojo, phone call and text. The Preschool staff will walk the children with a police escort to the Senior House in the Town Hall parking lot or the PV Middle School.

Emergency Transportation:

In the event your child needs to be transported due to a medical emergency, if no other authorized person can be contacted and the need for transportation is essential, an ambulance will be called for transportation to Chilton Hospital. A proper escort will accompany and remain with the child until a parent/guardian or emergency contact arrives.

I understand the policies and procedures for parent/guardian notification. I understand the emergency transportation policy and give consent for emergency transportation to Chilton Hospital.

STATEMENT OF PHILOSOPHY ON CHILD DISCIPLINE

- It is the philosophy of this Center to help children grow emotionally as well as intellectually, to help children succeed, promote self-confidence and be able to express their feelings in a positive and constructive manner.
- It is our policy that discipline be positive. Discipline is not punishment. It is a way of helping children learn to identify socially acceptable behavior.
- Within our Center, our limits and rules are clearly defined, consistent with and in accordance with the appropriate development and age of each child, and the program in general. We focus strongly upon the reinforcement of acceptable behavior, the prevention of undesirable behavior by being ourselves and, responsive to the needs of the children.

Methods of correcting inappropriate behavior within the Center consist of the following:

- 1) Attention to good behavior to respond to and reinforce positive behavior, acknowledge or praise the child, when behaving well to let him/her know that we approve of what he/she is doing.
- 2) Redirection of activities: to change the focus of a child's behavior.
- 3) Individualized attention: to help the child deal with a particular situation.
- 4) "Take-a-break" Quiet time, the removal of a child from the area of activity, for a few minutes, so that he/she may gain self-control. "Take-a-break" shall be used as a last resort used in disciplining any child who is misbehaving.

BEHAVIORS THAT WARRANT A STUDENT TO BE SENT HOME IMMEDIATELY

We have a no tolerance policy for these behaviors:

1. Forceful Hit of another student or staff member
2. Forceful Punch (closed fist) of another student or staff member
3. Any behavior that causes the breakage of skin of another student; biting, scratching etc.
4. Uncontrollable tantrums/angry outbursts that may cause injury to themselves or another student

An incident report must be signed, parent/guardian will also receive a copy.

The Student must be kept out of school for 3 days before returning to class

There will be no refund for time missed

GUIDELINES FOR POSITIVE DISCIPLINE

Positive discipline is a process of teaching children how to behave appropriately. Positive discipline respects the rights of the individual child, the group, and the adult. Methods of positive discipline shall be consistent with the age and developmental needs of the children, and lead to the ability to develop and maintain self-control.

Positive discipline is different from punishment. Punishment tells children what they should not do; positive discipline tells children what they should do. Punishment teaches fear; positive discipline teaches self-esteem.

You can use positive discipline by planning ahead:

- Anticipate and eliminate potential problems.
- Have a well-planned daily schedule.
- Plan for ample elements of fun and humor.
- Include some group decision-making.
- Share ownership and responsibility with the children. Talk about our room, our toys.
- Have a few consistent, clear rules that are explained to children and understood by adults.
- Provide time and space for each child to be alone.
- Make it possible for each child to feel he/she has had some positive impact on the group.
- Provide the structure/support children need to resolve their differences.

You can use positive discipline by intervening when necessary:

- Use time-out, by removing a child for a few minutes from the area of activity so that they may gain self-control. (One min. per year of the child's age is a good rule of thumb).
- Redirect to a new activity to change the focus of child's behavior.
- Divert the child and remove from the area of conflict.
- Provide alternative activities and acceptable way to release feelings.
- Provide individualized attention to help the child deal with a particular situation.
- Criticize the behavior, not the child. Don't say "bad boy" or "bad girl." Instead, you might say "That is not allowed here."
- Point out natural or logical consequences of children's behavior.
- Offer a choice only if there are two acceptable options.

Continued on page 7

Positive discipline continued:

You can use positive discipline by showing love and encouragement:

- Catch the child being good. Respond to and reinforce positive behavior; acknowledge or praise to let the child know you approve of what he/she is doing.
- Be loving, but don't confuse loving with license.
- Give hugs and caring to every child every day.
- Use encouragement rather than competition, comparison, or criticism.
- Provide positive reinforcement through rewards for good behavior.
- Overlook small annoyances, and deliberately ignore provocations.
- Appreciate the child's point of view.

Positive discipline is NOT:

- Disciplining a child for failing to eat or sleep or for soiling themselves
- Hitting, shaking, or any other form of corporal punishment
- Using abusive language, ridicule, humiliating, or frightening treatment or any other form of emotional punishment of children
- Engaging in or inflicting any form of child abuse and/or neglect
- Withholding food, emotional responses, stimulation, or opportunities for rest or sleep
- Requiring a child to remain silent or inactive for an inappropriately long period of time

Positive discipline takes time, patience, repetition, and the willingness to change the way you deal with children. But it's worth it because positive discipline works.

State Medical Information requirements

MEDICAL HOME POLICY

The Pompton Plains Preschool believes that children's health and medical needs are best cared for in an environment that promotes the sharing of information about a child's growth and development with their parents/caregivers. The American Academy of Pediatrics recommends all children have a Medical Home which they define as being "the delivery of advanced primary care with the goal of addressing and integrating high quality health promotion, acute care, and chronic condition management in a planned, coordinated, and family-centered manner". To establish a proper Medical Home, it is recommended by the American Academy of Pediatrics that all children have a primary pediatrician who knows the family and the child well and understands the individual's medical history to play a central role in the coordination of the child's medical care. An Emergency Room, an urgent care center, clinic, or specialist cannot be considered a Medical Home since they cannot take on the central role of primary care. The Pompton Plains preschool encourages all parents/caregivers to establish a primary pediatrician for your child to serve as their Medical Home.

IMMUNIZATIONS

Immunizations are required according to the current schedule recommended by the U.S. Public Health Services and the American Academy of Pediatrics, www.aap.org. Every January, we check with the public health department and the American Academy of Pediatrics for updates of the recommended immunization schedule. Our state regulations regarding attendance of children who are not immunized due to religious or medical reasons are followed. Unimmunized children are excluded during outbreaks of vaccine preventable illness as directed by the state health department. If your child will not be immunized for religious reasons, please provide us with a letter stating your request for religious exemption. This letter is submitted to the Pequannock Health Department.

PHYSICALS

Routine physicals are required according to the current recommendations of the American Academy of Pediatrics, www.aap.org. A copy of your child's physical should be received before but must be received no later than 6 weeks after your child begins the program. Families are responsible for ensuring that their child's physicals are kept up-to-date and that a copy of the results of the child's health assessment is given to the program.

DAILY HEALTH CHECK

We conduct a health check on each child as they enter the center each day. We look for skin rashes, bruises, scrapes, cuts, elevated temperatures, itchy scalps, lethargy, and changes from usual behavior. These are quick checks to protect the well-being of all children in the program. Please understand these are not physicals and do not substitute for proper routine pediatric care.

Allergy Prevention

Families are expected to notify us regarding children's food and environmental allergies. Families of children with diagnosed allergies are required to provide us with the Doctors directive detailing the child's symptoms, reactions, treatment, and care. A list of the children's allergies will be posted in each classroom. We are trained to familiarize ourselves and consult the list to avoid the potential of exposing children to substances to which they have known allergies.

Medications

All medications should be handed to a staff member with specific instructions for administration. Medications should never be left in the child's cubby or with the child to administer on their own. Our staff will ensure that the medication is recorded along with the directions and proceed to dispense the medication as directed.

- **Prescription medications** require a note signed by the family and a written directive from the child's physician. The label on the medication meets this requirement. The medication must include your child's name, dosage, current date, frequency, and the name and phone number of the physician. All medications must be in the original container (you may request pharmacies to fill your prescription in two labeled bottles). Please specify the dosage and time(s) to be administered for each medication. Our staff Teachers and aides will provide a log as to the application/administered medication your child receives at end of each week as needed.
- **Non-prescription medications** require a note signed by the family and/or physician. Non-prescription medication should not be administered for more than a 3-day period unless a written order by the physician is received.
- **Non-prescription topical ointments** (e.g., diaper cream) require a note signed by the family and/or physician, specifying frequency and dosage to be administered.
- We do not apply lotion sunscreen to your child's body below the neck.

ILLNESS STATE REQUIREMENT

If your child is absent from school due to illness, it is a State Requirement that you provide the teachers the reason for the absence by specifically stating the illness. Example: inform teacher of sore throat, fever, chicken pox, etc. As stated before, this is a state requirement, not just a school request and we must abide by this requirement.

HEALTH BEHAVIORS THAT WARRANT THE STUDENT TO BE SENT HOME IMMEDIATELY

We understand that parents work and have prior obligations, but we are unable to provide a "sick room" and one-on-one care for a child who is ill.

1. Child has a fever of 101 or higher (must not return to school **until free of fever for 24 hours**)
2. If a child is sent home for a fever they will not be able to return to school for 2 days.
3. Diarrhea
4. Vomiting
5. Red Eyes with discharge
6. Lice/nits must be nit free before child returns to school

Head Lice is not a communicable disease, but it is our school policy that the parents notify the school immediately.

Children with head lice will not be allowed to return to the center until they have been treated and no further head lice or nits are detected during a health check.

State Medical Information requirements

ILLNESS - All students with fever of 100.4 must stay home and may not return until they are fever free for 24 hours. This does not mean that if they have a fever at 2:00pm on Tuesday that they may return to school Wednesday after 2:00pm. It is fever free for a full 24 hours, then return the following day. We understand that it is difficult for a family member to leave or miss work, but to protect other children, you may not bring a sick child to the center. The center has the right to refuse a child who appears ill. You will be called and asked to retrieve your child if your child exhibits any of the following symptoms. This is not an all-inclusive list.

Illness that prevents your child from participating in activities.

- Illness that results in greater need for care than we can provide.

Department of Children and Families Office of Licensing
INFORMATION TO PARENTS STATEMENT

Under provisions of the Manual of Requirements for Child Care Centers (N.J.A.C. 10:122), every licensed childcare center in New Jersey must provide to parents of enrolled children written information on parent visitation rights, State licensing requirements, child abuse/neglect reporting requirements and other child care matters. The center must comply with this requirement by reproducing and distributing to parents this written statement, prepared by the Office of Licensing, Child Care & Youth Residential Licensing, in the Department of Children and Families. In keeping with this requirement, the center must secure every parent's signature attesting to his/her receipt of the information.

Our center is required by the State Child Care Center Licensing law to be licensed by the Office of Licensing (OOL), Child Care & Youth Residential Licensing, in the Department of Children and Families (DCF). A copy of our current license must be posted in a prominent location at our center. Look for it when you're in the center.

To be licensed, our center must comply with the Manual of Requirements for Child Care Centers (the official licensing regulations). The regulations cover such areas as: physical environment/life safety; staff qualifications, supervision, and staff/child ratios; program activities and equipment; health, food and nutrition; rest and sleep requirements; parent/community participation; administrative and record keeping requirements; and others.

Our center must have on the premises a copy of the Manual of Requirements for Child Care Centers and make it available to interested parents for review. If you would like to review our copy, just ask any staff member. Parents may view a copy of the Manual of Requirements on the DCF website at www.state.nj.us/dcf/providers/licensing/laws/index.html or obtain a copy by sending a check or money order for \$5 made payable to the "Treasurer, State of New Jersey", and mailing it to: NJDCF, Office of Licensing, Publication Fees, PO Box 657, Trenton, NJ 08646-0657.

We encourage parents to discuss with us any questions or concerns about the policies and program of the center or the meaning, application or alleged violations of the Manual of Requirements for Child Care Centers. We will be happy to arrange a convenient opportunity for you to review and discuss these matters with us. If you suspect our center may be in violation of licensing requirements, you are entitled to report them to the Office of Licensing toll free at 1 (877) 667-9845. Of course, we would appreciate your bringing these concerns to our attention too.

Our center must have a policy concerning the release of children to parents or people authorized by parents to be responsible for the child. Please discuss with us your plans for your child's departure from the center.

Our center must have a policy about administering medicine and health care procedures and the management of communicable diseases. Please talk to us about these policies so we can work together to keep our children healthy.

Our center must have a policy concerning the expulsion of children from enrollment at the center. Please review this policy so we can work together to keep your child in our center.

Parents are entitled to review the center's copy of the OOL's Inspection/Violation Reports on the center, which are issued after every State licensing inspection of our center. If there is a licensing complaint investigation, you are also entitled to review the OOL's Complaint Investigation Summary Report, as well as any letters of enforcement or other actions taken against the center during the current licensing period. Let us know if you wish to review them and we will make them available for your review.

Our center must cooperate with all DCF inspections/investigations. DCF staff may interview both staff members and children.

Our center must post its written statement of philosophy on child discipline in a prominent location and make a copy of it available to parents upon request. We encourage you to review it and to discuss with us any questions you may have about it.

Our center must post a listing or diagram of those rooms and areas approved by OOL for the children's use. Please talk to us if you have any questions about the center's space.

Our center must offer parents of enrolled children ample opportunity to assist the center in complying with licensing requirements; and to participate in and observe the activities of the center. Parents wishing to participate in the activities or operations of the center should discuss their interest with the center director, who can advise them of what opportunities are available.

Parents of enrolled children may visit our center at any time without having to secure prior approval from the director or any staff member. Please feel free to do so when you can. We welcome visits from our parents.

Our center must inform parents in advance of every field trip, outing, or special event away from the center, and must obtain prior written consent from parents before taking a child on each such trip.

Our center is required to provide reasonable accommodations for children and/or parents with disabilities and to comply with the New Jersey Law Against Discrimination (LAD), P.L. 1945, c. 169 (N.J.S.A. 10:5-1 et seq.), and the Americans with Disabilities Act (ADA), P.L. 101-336 (42 U.S.C. 12101 et seq.). SCHEDULE OF EXPULSION

- If after the remedial actions above have not worked, the child's parent/guardian will be advised verbally and in writing about the child's or parent's behavior warranting an expulsion. An expulsion action is meant to be a period of time so that the parent/guardian may work on the child/s behavior or to come to an agreement with the center.
- The parent/guardian will be informed regarding the length of the expulsion period.
- The parent/guardian will be informed about the expected behavioral changes required in order for the child or parent to return to the center.
- The parent/guardian will be given a specific expulsion date that allows the parent sufficient time to seek alternate childcare (approximately one to two weeks' notice depending on risk to other children's welfare or safety).
- Failure of the child/parent to satisfy the terms of the plan may result in permanent expulsion from the center.

A CHILD WILL NOT BE EXPELLED

If a child's parent(s):

- Made a complaint to the Office of Licensing regarding a center's alleged violations of the licensing requirements.
